DETAILED ACTION

Information Disclosure Statement

The European search report listed in the IDS filed March 11, 2004 has been considered.

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:
It does not identify the foreign application for patent or inventor's certificate on which priority is claimed pursuant to 37 CFR 1.55, and any foreign application having a filing date before that of the application on which priority is claimed, by specifying the application number, country, day, month and year of its filing.

Specification

The abstract of the disclosure is objected to because it is more than 150 words long. Correction is required. See MPEP § 608.01(b).

Allowable Subject Matter

Claims 1-20 are allowed.

Conclusion

The knock control systems made of record and not relied upon are considered pertinent to applicant's disclosure.

This application is in condition for allowance except for the following formal matters:

Correction of the abstract and oath/declaration, as noted above.
